

TECHNICAL DATA SHEET

AM1091F All American Green-B-Clean

PRODUCT DESCRIPTION

Am1091F All American Green-B-Clean is a superior, water-based, heavy-duty liquid cleaner. Designed for a multitude of tough industrial cleaning jobs, this biodegradable, USDA-approved cleaner attacks greasy, grimy surfaces allowing the dirt to be easily washed away without streaks and discolorations.

Am1091F All American Green-B-Clean is formulated to remove buildup of grease, oils, muds, waxy paraffin residues, and other hydrocarbon base deposits without damaging the environment or ozone. It is recommended for the cleaning of grease injector equipment including grease control heads, cable lubricators, and injection pumps.

Applications for Am1091F All American Green-B-Clean are found in many areas including general industry, machine shops, marine industry, automotive shops, aviation industry, petroleum industry, printing industry, and municipalities.

A safe, economical, all-purpose cleaner, Am1091F All American Green-B-Clean contains no toxic solvents, free alkalies, acids, or abrasives. Unlike many similar products, it does not contain butyl cellosolve.

TYPICAL OBSERVATIONS

Color	Green
Appearance	Viscous fluid
Vapor Density	>1
Specific Gravity @ 77°F (25°C)	1.05
Density, lbs/gal @ 77°F (25°C)	8.79
Flash Point ASTM D-93	Non-flammable
Solubility in Water	Complete
Shelf Life (unopened container)	One year
Viscosity, #4 Ford Cup @ 77°F (25°C)	18 sec
pH	8-9
Boiling Point	>212°F (100°C)
Freezing Point	26°F (-3.3°C)

APPLICATION

Am1091F All American Green-B-Clean is highly concentrated and will readily mix with hot or cold, hard or soft, salt or fresh water. Am1091F All American Green-B-Clean can be mopped, sprayed, or wiped on, allowing time to soak. It is then rinsed off with clean water. Am1091F All American Green-B-Clean can be used on metal, wood, rubber, tile, concrete, or painted surfaces.

Am1091F All American Green-B-Clean, when properly diluted, is effective in cleaning wireline units, tanks and equipment in machine shops, floors (especially in grease plants and food plants), airplanes, boats, trucks and trailers used to haul pipe, threads, equipment, engines (as mild degreaser), houses (using pressure washer), spots from carpet and carpet floor mats, greasy rags, greasy hands, jewelry, bilge pumps, and soiled, painted surfaces.

BENEFITS

- Biodegradable
- pH balanced
- Multi-purpose
- USDA approved
- Safe
- Economical
- Non-corrosive
- Non-flammable
- Non-combustible
- Water soluble
- Non-caustic
- Leaves no surface residue
- Environmentally acceptable
- Non-toxic
- Does not contain butyl cellosolve
